*Terms and Conditions: This is a limited offer restricted to a number of developments and homes. Criteria set out above meet the basic Home Performance Index certification level and may be subject to onsite inspection and provision of additional documentation depending on audit. IGBC reserve the right to withhold certification even where criteria are met. Certification is based on information provided and developer remains responsible for the veracity of documentation. If you are interested in building to more ambitious quality levels and are willing to undertake a more comprehensive evaluation, please download the full manual at www.HomePerformanceIndex.ie.
